These relatives reside in Ravenna.

Remains Identified

The skeletal remains found May
10 about one half mile off Broad-
way in Irvine were identified last
week as those of Loretta Lynn
Willoughby.

Willoughby, 15, of Church
Street in Irvine, had been missing
since February 10. She was the
daughter of Mollie Booth Willoughby
of Irvine and Larry Willoughby
of Winchester.

The remains were discovered by
an Irvine man who reportedly
found a pair of shoes sitting beside
a tree and noticed other articles of
clothing laying in a drain about
fifteen feet from the shoes.

The Estill County Sheriff's
Department, the Kentucky State
Police and Estill County rescue
squad members searched the area
and found several other bones
including the skull.

Clothing remains, a white jacket,
the shoes and a pair of jeans, helped
to identify the body since they
matched the description of the
clothing which Loretta Willoughby
was wearing when she was repor-
ted missing.

Although there have been no
arrests in connection with the body,
the cause of death has been ruled as
a homicide and some possible
suspects are being investigated in
connection with the case.
